

Celebrating  
60 years  
1957-2017

## About ASME

- Established in 1957 by the General Medical Council (GMC) to promote and conduct research into medical education
- Regular events and workshops, including flagship Annual Scientific Meeting (ASM) and Researching Medical Education (RME)
- Respected scientific journals - *Medical Education* and *The Clinical Teacher*
- Professional development through awards, papers, recognition and networking

### ASME Mission

*To meet the needs of teachers, trainers and learners in medical education by supporting research-informed, best practice across the continuum of medical education.*

## ASME Goals

- Promote high quality research into medical education.
- Provide opportunities for developing medical educators.
- Disseminate good evidence based educational practice.
- Inform and advise Governmental and other organisations on medical education matters.
- Develop relationships with other organisations and groupings in healthcare education.

## ASME Values

- Education and learning are central to the delivery of high quality healthcare.
- Education must be an important component in the strategies of Governmental and other healthcare organisations.
- Good healthcare educators are central in planning, delivering and evaluating high quality healthcare.
- Individual members of ASME should be supported and developed.
- High quality research is necessary for the development of healthcare education.
- Vision, innovation and leadership in healthcare education are to be fostered.
